

True Fibre

Limitless, ultra-fast bandwidth to help grow your business.

With the advent of high data volumes and the requirement to utilise new content and services, having access to fast bandwidth is a necessity for all modern businesses.

Welltel delivers broadband using a number of different access networks and technologies including xDSL, FTC, Wireless and Fibre Ethernet with speeds of up to 10Gbps. Voice and data segregation is available on Fibre connections as part of our smart internet access, SIA, service.

Our Fibre Broadband solution provides you with instant Fibre to the premises.

Flexible packages allow you to select & pay only for the bandwidth speed appropriate for your business requirements.

“The 100Mbps Fibre internet connection provided by Welltel has given Boston College a robust connection with guaranteed speed. We now have the ability to segregate our Internet connection for Data, Voice & student public WIFI” - Thea Gilien - Director, Boston College.

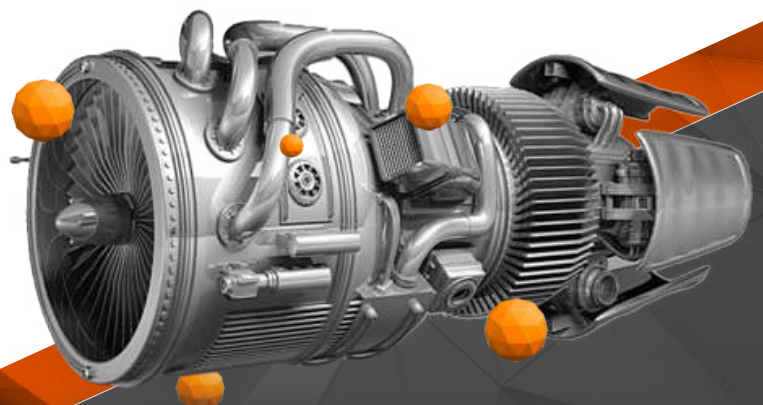

True fibre with smart internet access

10Mbps -10Gbps

What is the cost? To find out within 24 hours an exact cost on your chosen True Fibre speed, please contact us:

CHALLENGES

- *Current bandwidth speeds do not provide an efficient working environment*
- *Non-technical workforce struggling to manage current internet access system*
- *Communications costs out of control*
- *Require extra bandwidth during certain work periods*
- *Moving to new premises but need immediate internet capability*

Fast, Reliable Fibre. Superior connectivity for your business needs.

True Fibre	Benefits
Speeds up to 10 Gbps	Ability to access new services and content
Flexible Bandwidth Packages	Controlled spend – select according to your needs & your budget – bundle in your phone lines
Data Bursting Offers	Extra bandwidth when it's needed – only pay when you need/use higher speeds
Managed Service	Your staff don't need to learn about or spend time on complex set-up & management tasks
Fibre access installed in new premises	Instant access, low set-up costs.

About Welltel

Twice winners of Deloitte Fast 50 awards, Welltel has established itself as a leading provider of business communications solutions across cloud-based and on-premise Phone Systems, Voice over IP, ISP services and Unified Communications.
